

Introducing SAP Fiori

Keeping Simple Things Simple

Consumer user experience is the new standard for enterprise applications ...

...but most users still experience
SAP through SAP GUI.

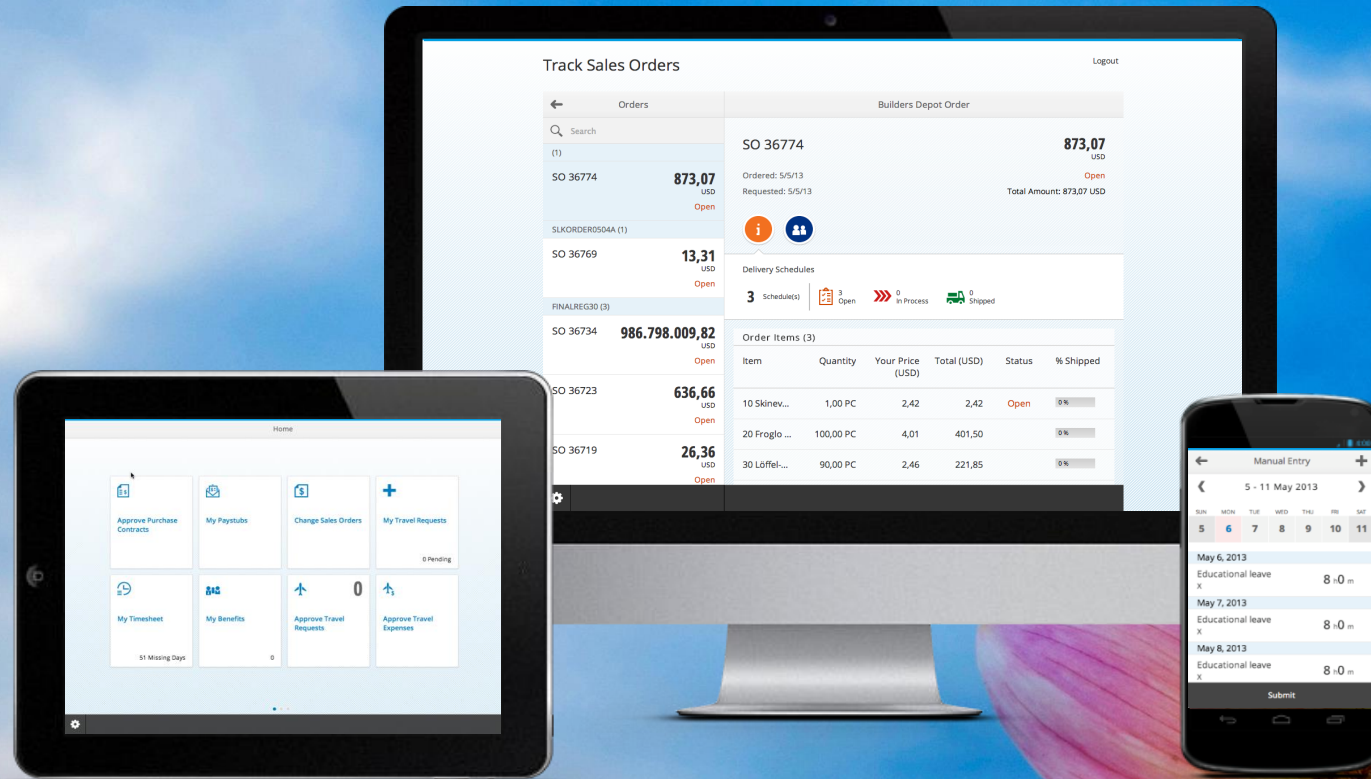

Our Goal:

Provide immediate impact by renewing the user experience of the **most broadly and frequently** used SAP software functions that can be **accessed from mobile and desktop devices**

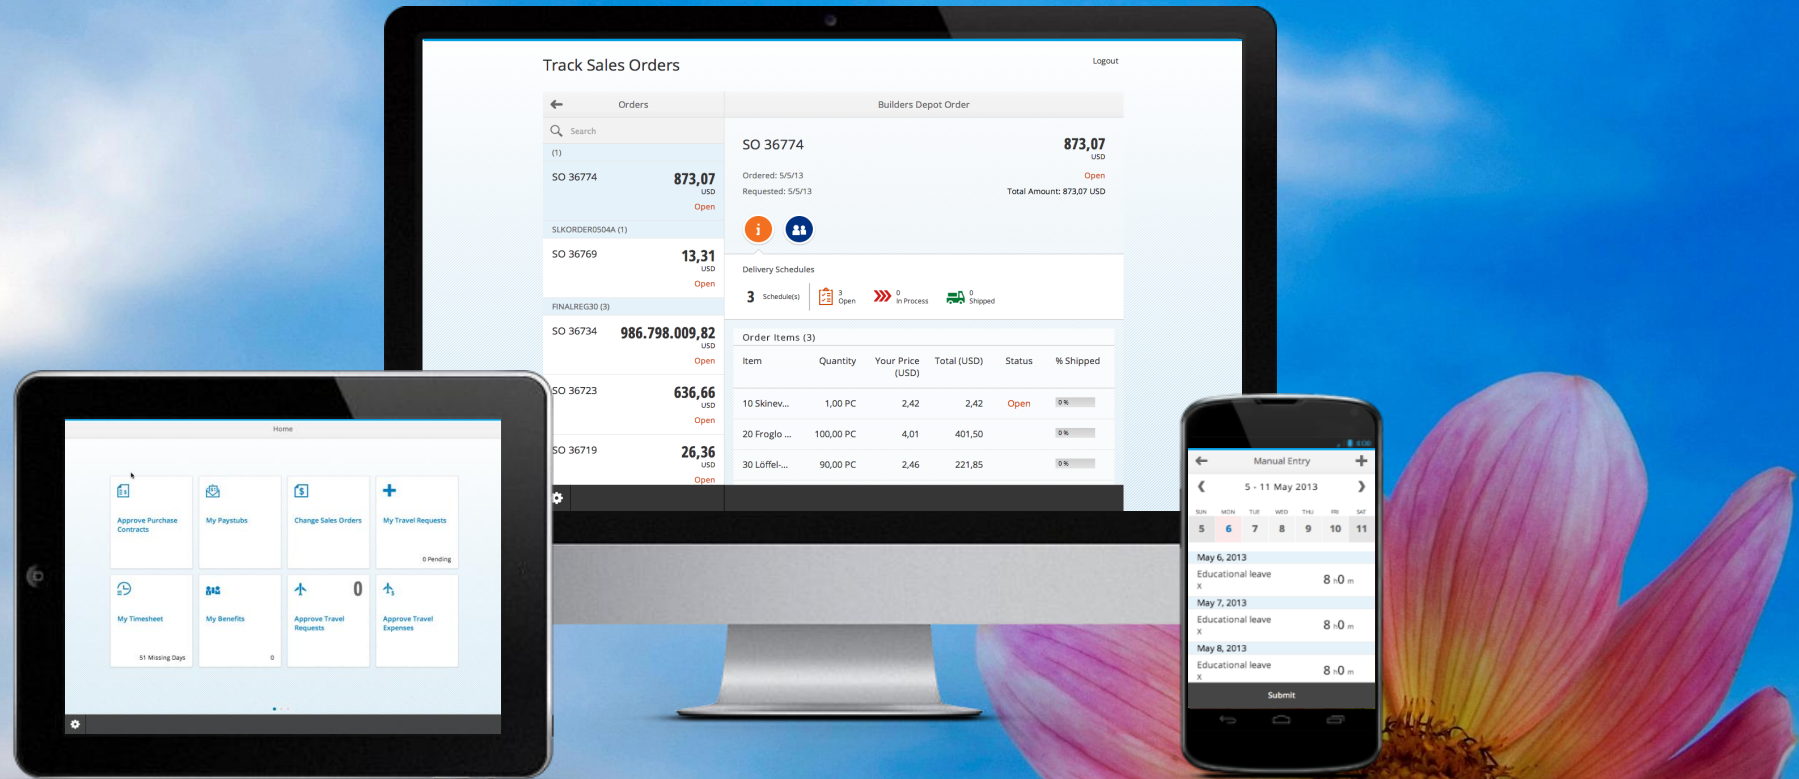

Introducing SAP Fiori

A collection of apps with a simple and easy to use experience for broadly and frequently used SAP software functions that work seamlessly across devices – desktop, tablet, or smartphone.

Introducing SAP Fiori

Enables our customers to leverage their existing SAP investments by providing instant value for all their employees.

Check Price and Availability

Purchasing Agent

Track Purchase Order • Order from Requisitions

SAP Fiori Development Approach

Engaged with **250+ customers** to understand the most common business functions and how people want to work ...

A pink lotus flower in bloom is positioned on the right side of the slide, partially overlapping the dark grey text box. The background is a bright blue sky with soft, white clouds. The overall aesthetic is clean and professional.

Implementation Projects

“

We have deployed SAP Fiori at Colgate and the feedback from our first group of business users has been very positive. They are excited about the ease of use and simplicity of the app. We worked very closely with SAP on the vision and mission of SAP Fiori and we think the first release of our collaboration looks great. We believe SAP Fiori will help to provide consumer-grade user experiences to our employees.

Tom Greene, Chief Information and Business Services Officer, Colgate

”

“

“I am very excited to see such positive results from SAP’s UX Strategy in such a short time frame. The SAP Fiori apps are as easy to use as Facebook, Google or Amazon. This is exactly what end users are looking for.”

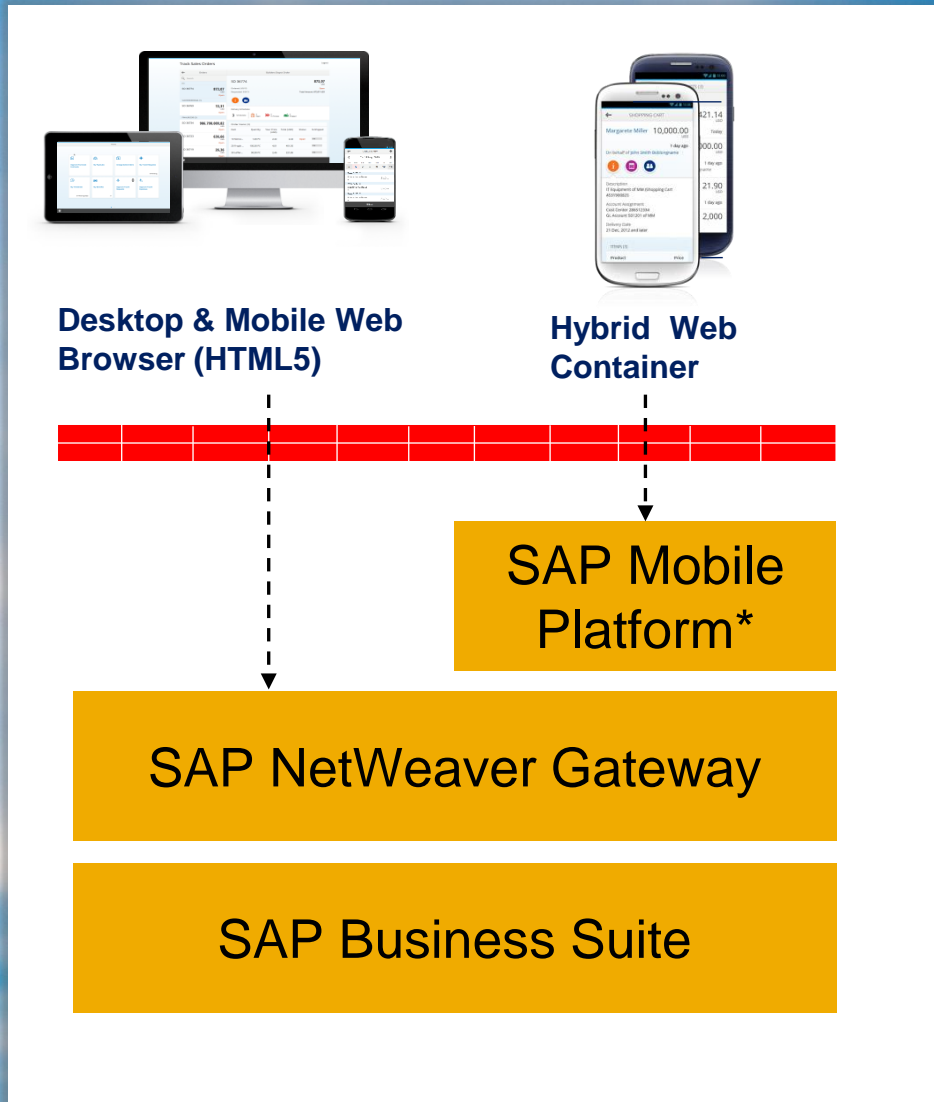

Benjamin Salter, Enterprise Architecture and Application Development, Valero

”

Appendix

SAP Fiori and SAP Mobile Platform Future Plan

Now: Direct Access via SAP NetWeaver Gateway

***Future Plan: Support for SAP Mobile Platform**

- Hybrid Web Container
- Enhanced Mobile Capabilities
- Offline Access
