

Header Data

Released On	01.12.2014 16:57:20
Release Status	Released for Customer
Component	HAN-DB SAP HANA Database
Other Components	BC-OP-LNX-RH Red Hat Linux
Priority	Recommendations / Additional Info
Category	Installation information

Symptom

You want to install the SAP HANA on Red Hat Enterprise Linux (RHEL)

Other Terms

SAP HANA Operating System, RHEL

Reason and Prerequisites

With release of SAP HANA Platform SPS08 (Revision 80) the support for Red Hat Enterprise Linux (RHEL) for SAP HANA had been added.

This includes support for scale-up, as well as scale-out configurations as listed at <http://scn.sap.com/docs/DOC-52522>.

Solution

Find the current Installation Guide on SAP Help Portal:

http://help.sap.com/hana/Red_Hat_Enterprise_Linux_RHEL_6_5_Configuration_Guide_for_SAP_HANA_en.pdf

In the "Red Hat Enterprise Linux (RHEL) 6.5 Configuration Guide for SAP HANA" the SAP HANA installation is described for single-container mode. For multiple-container mode installation check the following guide:

http://help.sap.com/hana/SAP_HANA_Server_Installation_Guide_en.pdf

Validity

Software Component	From Rel.	To Rel.	And Subsequent
HDB	1.00	1.00	<input type="checkbox"/>
